Gravity Conveyor Use Gravity!

Gravity Conveyors

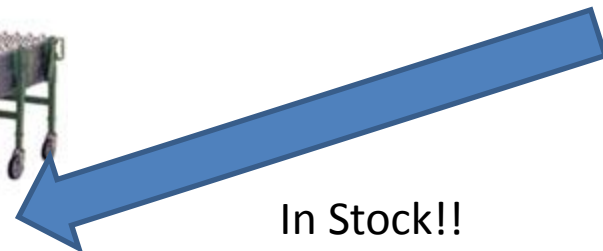

- [Roller Conveyors](#) – Facts to know
 - (1) 3 rollers must be under the load at all times
 - (2) All things being equal , a larger diameter roller means greater capacity
 - (3) A Plus Warehouse provides stands of varying elevation – just let us know what you need!

A Plus Warehouse – Tel : 800-209-8798

Gravity Conveyors

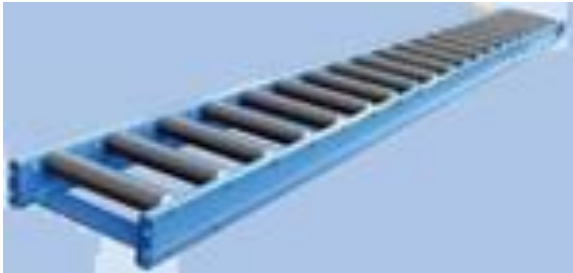

- Skatewheel Conveyors – Things to know
 - (1) 3 axles must be under the load at all times
 - (2) A Plus Warehouse provides skate wheel conveyors in steel and aluminum and both are in stock
 - (3) [Expandable skatewheel conveyors](#) are also available – many sizes in stock

Specialty Roller Conveyors

PVC Roller Conveyors

- Great for fragile items
- Available in medium and heavy duty– 7/8 and 1.9 in roller diameter

Stainless Steel Roller Conveyors

- Great for High Tech
- Great for washdown use

We Know Conveyors !

Powered Conveyors

Slider Bed Conveyors

- Best for light duty use
- Available with variable speed option and other options as well
- Many are ordered single phase , but three phase is also available

Roller Bed Conveyors

- Like slider bed , but the bed has rollers in it
- Much less friction than slider bed conveyors – draws less current
- Better for inclined applications

More Powered Conveyors!

Live Roller Conveyors

- Offered in medium duty and heavy duty
- The motor directly drives the rollers

Parts Conveyors

- Great for moving parts through production
- Also good for light scrap
